## Menzies International announces its new membership with Supply Nation – 14/9/2016

Menzies is delighted to announce its new membership with Supply Nation.

Our membership of Supply Nation embodies our commitment to diversity both in our workforce and procurement process. Even prior to our membership of Supply Nation, Menzies has spearheaded the following initiatives:

- Signing an agreement with GenerationOne (employment covenant) and dedicating over 250 roles to Indigenous employees
- Since signing with GenerationOne, Menzies has already fulfilled over 71% of its above mentioned commitment through our targeted and collaborative approach to Indigenous recruitment.

Supply Nation Chief Executive Officer, Ms Laura Berry, said “we are delighted to welcome the Menzies into the Supply Nation program and look forward to working with them to develop their supplier diversity footprint.”

Supply Nation is a simple and effective collaboration between Government, Corporate and Indigenous Australia.

Supply Nation’s mission is to facilitate, encourage and promote business between these sectors and Indigenous owned businesses. The measure of our collective success will be in the value of transactions between our members and suppliers.

Supply Nation connects its members to Indigenous businesses to build a vibrant and prosperous Indigenous business sector by incorporating Indigenous owned, controlled and managed businesses into the supply chain of Australian companies and government agencies.

Supply Nation and its membership will play an important role in closing the gap on Indigenous disadvantage by facilitating growth in Indigenous enterprise in Australia.
